AFTERMARKET SOLUTIONS

OEM BELT DRIVE SYSTEM EXPERTISE FOR THE AFTERMARKET

As a leading OEM supplier and inventor of the Poly V belt and Stretchy belt concept, Hutchinson brings decades of belt drive expertise to the automotive aftermarket.

The range includes timing belts, Poly V belts, Stretchy belts, Hybroad® belts, Timing kits, FEAD kits, chain kits, tensioners, damper pulleys and water pumps.

Designed to original equipment standards, Hutchinson belt drive systems deliver maximum efficiency, reliability and durability throughout the vehicle lifecycle.

These solutions are available for conventional and hybrid vehicles.

BELTS

Stretchy belt

- ▶ Automotive elastic belt technologie pioner
- ▶ FEAD system optimization
- ▶ Optimized power transmission

Hybroad® belt

- ▶ High torque transmission capacity
- ▶ Endurance under high sollicitations
- ▶ Hybrid powertrain optimization

Poly V belt

- ▶ Automotive Poly V belt pioner
- ▶ Smooth, quiet and efficient
- ▶ Reliable in all driving conditions

KITS

Timing belt kit + water pump*

**The water pump is optional*

- ▶ OE-quality components
- ▶ Complete timing system solution
- ▶ Expert technical support

Secondary drive kit

- ▶ Developed from OE expertise
- ▶ Complete accessory drive solution
- ▶ System compatibility expertise

Timing chain kit

- ▶ Complete kit = reliable repair
- ▶ OE-quality components
- ▶ Easier installation/Greater efficiency

TENSIONERS

Hydraulic tensioner

- ▶ Consistent tension performance
- ▶ Superior vibration damping
- ▶ High performance applications (Hybrids, Trucks)

PULLEYS

Damper pulley

- ▶ Effective vibration damping
- ▶ Extended accessory drive lifespan
- ▶ Improved comfort & quieter operation
